PROFILE

Motivated and detail-oriented Front-End Developer with a solid foundation in HTML, CSS, JavaScript, Typescript and React. Passionate about crafting user-friendly and visually appealing web applications, I thrive on transforming designs into seamless digital experiences. With a commitment to continuous learning, I am eager to contribute innovative solutions and grow within a dynamic team environment.

EDUCATION

Informatics Engineering

Yarsi University

2020 – 2024

Jakarta, Indonesia

- GPA of 3.89/4.00.
- Assistant Lecturer for Database 1 Course.
- Assistant Lecturer for Object Oriented Programming (OOP) Course.
- Assistant Lecturer for Web Design and Programming Course.
- Participated in student exchange program PMM Bela Negara.
- Member of Student Organization - Himpunan Mahasiswa Informatika (HIMFO), Talent Interest Division.

EXPERIENCE

Android Engineer

Binar Academy

02/2023 – 07/2023

Jakarta, Indonesia

- Applied Kotlin Programming Fundamentals in developing simple Android applications.
- Implemented basic programming principles using Android development tools and created fundamental UI designs.
- Developed applications featuring screen navigation using Activities and Fragments in Android Studio.
- Created Android applications incorporating local data storage following official Android documentation.
- Built Android applications with server connectivity for data display and implemented engaging UI designs.
- Implemented background processes and file management in Android applications using structured architecture.
- Operated various development tools to support Android application development processes.
- Contributed to Android application development in a team environment using collaboration tools.

Database 1 (Assistant Lecturer)

Yarsi University

02/2022 – 06/2022

Jakarta, Indonesia

Making case studies for students in which following materials:

- Business Rule (Structural and Procedural), Conceptual Modeling, Matrix.
- Diagram, Logical Data Model, Attribute type, Supertype and Subtype Entity.
- Transferability, Optionality and Cardinality.
- Hierarchical and Recursive Relationship, Change Supertype/ Subtype
- Entity to Arc Relationship, Normalization (1, 2, 3 NF).- Transformation from Logical Data Model to Physical Data Model.
- Challenge students to solve problems DDL, DML, Select, Single Row.
- Function, Join, Group by, Having clause and Order by using PostgreSQL.

Object Oriented Programming (Assistant Lecturer)

Yarsi University

09/2022 – 12/2022

Jakarta, Indonesia

- Assessing and evaluating student assignments.
- Creating assignments.
- Become a mentor for students in working on their final project.
- Teaching a material.

- Assessing and evaluating student assignments.
- Making learning videos about API Integration and State Management.
- Create an example website application for continuity of learning.
- Assessing the results of students final projects with the lecturer.
- Assist lecturers in every material taught.

SKILLS

Hard Skills

- React.js
- JavaScript
- HTML5 & CSS3
- Kotlin
- TypeScript
- Next.js
- Git
- Tailwind CSS
- Bootstrap
- Visual Studio Code
- Postman
- Android Studio

Soft Skills

- Willingness to Collaborate
- Problem Solving
- Adaptability
- Good Communication Skills
- Continuous Learning
- Detail-oriented
- Quick Learner

PROJECTS

K-Etik

Web Development

Architected and implemented K-Etik, a comprehensive ethics committee management system for Universitas YARSI, utilizing a modern MERN stack (MongoDB, Express.js, React.js, Node.js). Engineered responsive front-end interfaces with React.js, implementing role-based dashboards for proposers, administrators, reviewers, and committee chairs. Developed scalable RESTful APIs using Node.js and Express.js to handle complex workflow management and user authentication. Designed and implemented MongoDB database schema to efficiently manage research proposals, user data, and committee decisions. Successfully streamlined the ethics review process, reducing administrative overhead and improving communication between stakeholders through an integrated platform that enhances research ethics compliance standards.

02/2024 – 07/2024

Shinzou

Android Development

Developed Shinzou, an Android-based flight ticket scheduling application using Kotlin and Android Studio. Engineered an intuitive mobile interface that enables users to efficiently browse and filter flight schedules based on multiple parameters including dates, passenger count, and seating class preferences. Implemented data handling and filtering algorithms in Kotlin to ensure smooth performance and real-time search functionality. Successfully created a user-centric application that streamlines the flight ticket search process, enhancing the overall travel planning experience Android interface.

06/2023 – 07/2023

Thoughts Gather

Web Development

Thoughts Gather, an interactive discussion forum web application built with React.js and modern web technologies. Developed a dynamic user interface featuring real-time content interaction, including post creation, commenting systems, and engagement metrics through likes and dislikes. Implemented state management and component architecture using React to ensure smooth user interactions. Created RESTful API integrations for efficient data handling, enabling users to seamlessly share ideas, engage in discussions, and participate in community conversations through an intuitive and modern interface.

08/2024 – 09/2024

MagZeen is a dynamic news platform that provides news coverage across multiple categories. Built with TypeScript and Next.js, it provides a smooth and reliable browsing experience, allowing users to stay up to date with the latest information and trends from a variety of sources. Designed for accessibility and ease of use.

CERTIFICATES

- Belajar Dasar Pemrograman Web
 - Belajar Membuat Aplikasi Web dengan React
- Belajar Dasar Pemrograman JavaScript
 - Belajar Fundamental Aplikasi Web dengan React
- Belajar Membuat Front-End Web untuk Pemula
 - Menjadi React Web Developer Expert

ORGANIZATIONS

Himpunan Mahasiswa Informatika

Member of Talent Interest Division

2022 – 2023
